Transportation and Highway Engineering Conference

Traffic, Operations & Safety Seminar | February 26 & 27, 2019 | Champaign, IL, USA |

Critical Commerce Corridor

How to build it?

- P3 Public Private Partnership
- Diesel Tax (25 cents)
- Tolling Truck Lanes Only

The Hard Part !

- Where to start?
 - Where there are a lot of trucks
 - Where there is congestion
- Who will be first?
 - It takes great courage and commitment for a state to do this! It also takes the support of the Federal Government to have a national plan for this program. There is currently set aside money in the budget for this idea to encourage a state to begin.

Thank You!
